His Excellency, Dr. Malachi Kobina York has stated publicly and privately, that we, African Americans, are descendents of the Ancient Egyptians. The Ancient Egyptians are our Ancestors. Hence we have The Ancient Egyptian Order (A.E.O.). His Excellency also was accepted as Our First Pharaoh known to Nuwaupians during the late 1990's as Aaferti: Atum Re. His Excellency is also the primary Architect of "Little Egypt of The West Embassy", more popularly known as TAMARE, a Sacred Egyptian Theme Park and Village which was located in Eatonton, Georgia. In PAA MADJAYU DAKRUN NEWS Editions No. 1 – 4 we revealed the diabolical conspiracy of white supremacist and their imps to undermine His Excellency, Dr Malachi Kobina York and the Nuwaupian Tribe. His Excellency was told at a Question & Answer Class, by a Nuwaupian Brother who had visited Egypt, that he saw a picture on a Egyptian Temple Wall that looked exactly like him. His Excellency, Dr Malachi Kobina York told him that the Ancient Egyptians are our Ancestors and that you will find many of our images on the Temple walls in Egypt/Egypt today. We all share the same DNA.

YOU BE THE JUDGE.

PRESIDENT BARACK OBAMA

[Look Like An Egyptian – Obama Sees His Ancient Twin](#)

**Joe Von Kanel
 CNN Writer and Editor**

President Obama got an “up close and personal” —VERY personal as it turns out— look at the pyramids before leaving Egypt today. One of the tombs contains a 4,600-year-old relief portrait of a man named Kar, who was a priest, scholar and judge. He also looked exactly like Mr. Obama – big ears and all. Take a look!

Barack Obama Discovers Likeness Of Himself In Ancient Egyptian Tomb

05 JUNE 2009

Eyeing the slim face and protuberant Ears of a Hieroglyph in the Egyptian underground tomb, President Barack Obama exclaimed: **"That Looks Like Me! Look At Those Ears!"**. Amused, he called his advisors over to take a closer look.

The US president made his discovery of the uncanny likeness in the Tomb of Qar - a prominent ancient Egyptian priest and scholar - during a visit to the pyramids. He was in the country to deliver a much-anticipated speech to the Islamic World in Cairo, which he'd given earlier in the day.

While Mr Obama, casual in chinos and a navy polo shirt, seemed to relish his visit to the ancient sites, which included the Great Pyramid of Giza - "This thing is huge," he commented as he gazed upwards at the vast structure - he was coy about participating in another traditional Egyptian experience, that of camel riding.

As members of his party, including Chief Of Staff Rahm Emanuel, mounted a gaggle of dromedaries in preparation for a ride in the desert, Mr. Obama told the assembled press corps: "I want you to know, if you weren't here I'd get on a camel. I just don't want to give you guys the satisfaction."

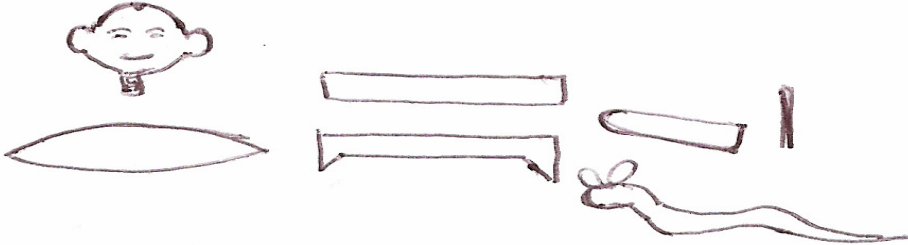

From Egypt the United States President , Mr. Barack Obama, traveled to Germany for talks with Chancellor Angela Merkel. On Saturday he'll be in France to participate in the Normandy events marking D-Day.

President Barack Obama In Egypt

President Barack Obama is given a tour of the Great Pyramids of Giza by the Secretary General of the Supreme Council of Antiquities Dr. Zahi Hawass while in Cairo, Egypt.

Brother John Carr, a Nuwaupian Elder spearheaded a Letter-writing campaign to inform President Barack Obama of the colossal injustice perpetrated against His Excellency, Dr. Malachi Kobina York, by both Federal and local law enforcement agencies in the State of Georgia from 1998 to date (2009 A.H.). Dr. Malachi Kobina York was brutally arrested in Georgia on May 8th, 2002, the same day that Georgia's Federal and local law enforcement agencies executed a Gestapo-type raid on Tamare (Little Egypt of The West Embassy), a Nuwaupian Village and Egyptian Theme Park located in Eatonton, Georgia's Putnam County.

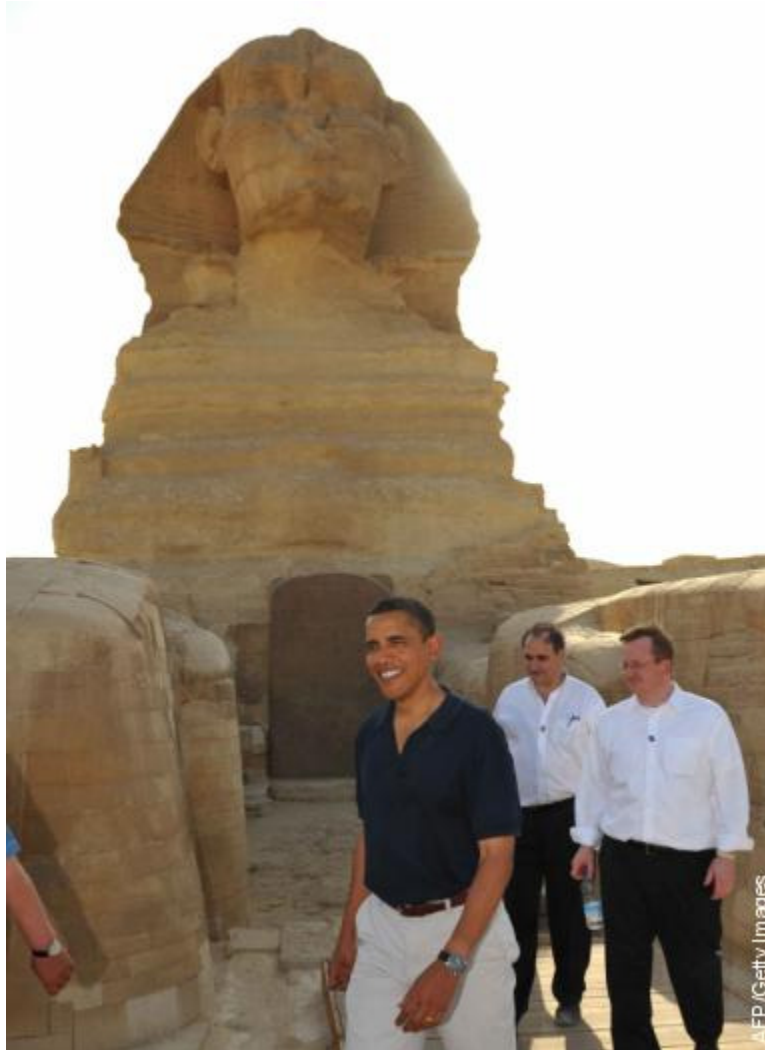

We can only hope and pray that President Barack Obama has received The Letters sent to President Barack Obama in Washington, D.C.

During his tour Mubarak ordered the government to "coordinate" with the Nubians in building new villages.

Some pro-government media accuse the Nubians of wanting independence.

Nubians are believed to be descendants of an ancient African civilization.

All one has to do is study the Hand-Writing On The Walls on the Egyptian Temples, Monuments and Pyramids.

A number of such walking sticks handles were found in Tutankhamen's tomb, along with numerous other overtly racial depictions, mostly of Blacks and Semites being subjugated and identified as the enemies of Egypt. (Hyksos).

African Blacks were the True Ancient Egyptians. Neighbors of Ancient Egypt, such as the Sudanese Beja tribes were welcomed as aiders and mercenaries by the Black Egyptians Pharaohs- it was in fact the use of Black labor , either as technicians or as mercenaries, which led to the large scale penetration of Egypt by other Black African Nubians. Within time, their numbers increased to the point where they defeated migrating invaders such as the Hyksos, driving them from their Land. Once this point was reached, around 800 BC, The attempt to

Hide the fact that Egypt was built and ruled by African Blacks is a ongoing conspiracy. This Attempt to steal the Land, Culture and Natural Resources of Ancient Egipt continues to this Very day. But it continues to stand True

Egypt President Pledges to Help Nubian Minority

Thursday, June 11, 2009

Salah Nasrawi

Associated Press

CAIRO: Egypt's president pledged Wednesday to promote development and care for the Nubians, as criticism to his government's treatment of Egypt's ancient but highly marginalized minority mounts. President Hosni Mubarak, in remarks made after touring Aswan Province where many Nubians live, said his government's plans to relocate many Nubians from their traditional dwellings along the Nile does not entail any ill will toward the population. **His comments come as Nubians, fearing displacement, have begun to step up their opposition to the government's resettlement plans.**

"Their demands and requests should be met because they are part and parcel of the Egyptian national fabric," he said.

Mubarak's statement is the first by such a high-ranking government official publicly acknowledging the dispute.

In the 1960s Egypt relocated hundreds of thousands of Nubians outside their historic homeland when the newly built Aswan High Dam flooded their traditional area.

Under a UNESCO plan, international efforts helped salvage several monuments from flooding including the famed Abu Simbol temple.

However, over the years, many Nubians quietly moved back into the area, living along the lake. **The government is now trying to relocate them.**

Early this year, Nubian villagers started collecting signatures protesting local councilors who agreed to the decision issued by the Aswan governor.

Campaigners demanded their new villages be built in locations similar to the original ones alongside the Nile.
